
ONE MILLION BUCKS PRESENTS
The Billionaire Blueprint
22 rules, stories and habits to build wealth from wherever you start
FREE GUIDE

A LETTER BEFORE YOU BEGIN

Wealth is not luck. It is a set of decisions.

Every fortune in this guide started smaller than you think. A few thousand dollars of savings. A rejected job application. A shoe business run out of a car. What separated these people from everyone else was not where they began. It was what they decided to do next, and how long they kept doing it.

This guide collects twenty-two of those decisions. Some are mindsets, some are money rules, and some are true stories of people who built extraordinary wealth from ordinary beginnings. Each one ends with a small action you can take today, because reading about wealth changes nothing until you act on it.

Read one rule a day. Do the action. In three weeks you will have more clarity about money than most people gain in a lifetime.

And follow **@one.millionbucks** on Instagram, YouTube, Facebook and TikTok for a new lesson every day.

To your first million,
One Million Bucks

Inside the Blueprint

PART I · THE WEALTH MINDSET

Discipline is freedom 5

Start before you're ready 6

Your circle shapes your future 7

Wealth is invisible 8

PART II · THE MONEY RULES

5 money rules the wealthy follow 10

Small leaks sink big ships 11

When will your money double? 12

The 50/30/20 budget 13

Raise your credit score 14

Why raises don't make you rich 15

Why many investors choose index funds 16

PART III · BILLIONAIRE STORIES

She started with $5,000 18

Rejected by Facebook. Then sold to it for $19B 19

Buffett's real secret is time 20

Amazon started in a garage 21

From poverty to billionaire 22

From Denny's to Nvidia 23

Food stamps to $19 billion 24

From public housing to Starbucks 25

Nike started in a car trunk 26

He founded IKEA at 17 27

A dropout who built Oracle 28

The 30-Day Wealth Plan 29

PART

I

The Wealth Mindset

Habits and beliefs that come before the money

Discipline is freedom

Why the wealthy love boring routines

01

TRUTH

Motivation fades

Systems keep working when you do not feel like it.

02

COMPOUNDING HABITS

1% better daily

Small daily improvements add up the same way money does.

03

THE EDGE

Delay the reward

Choosing future you over present you is the habit behind most fortunes.

DO THIS TODAY

Pick one money habit and attach it to something you already do every day.

Start before you're ready

Waiting is the most expensive habit

01

REMEMBER

Ready never comes

There is always one more thing to learn first.

02

REMEMBER

Action teaches

You learn faster by doing than by planning.

03

REMEMBER

Small steps count

Ten minutes today beats a perfect plan for later.

DO THIS TODAY

Take one ten-minute action today on a goal you have been postponing.

Your circle shapes your future

Choose your room carefully

01

REMEMBER

Habits spread

We copy the people we spend time with.

02

REMEMBER

Talk about ideas

Find people who talk about building, not just spending.

03

REMEMBER

Be the example

Raise the standard for the people around you.

DO THIS TODAY

Name one person who pushes you to grow and arrange a conversation with them this week.

Wealth is invisible

What you don't buy builds it

01 REMEMBER

The car you didn't buy

Becomes the investment that grows.

02 REMEMBER

Quiet money

Real wealth is often the money nobody sees.

03 REMEMBER

Future you says thanks

Every skipped impulse buy is a vote for freedom.

DO THIS TODAY

Write down an impulse buy you skipped this week and move that money to savings.

PART

II

The Money Rules

Simple systems that turn income into wealth

5 money rules the wealthy follow

Simple, boring and they work

01

RULE ONE

1. Pay yourself first

Move savings out the day you get paid, before you spend anything.

02

RULE TWO

2. Automate it

An automatic transfer beats willpower. Set it once, let it run.

03

RULE THREE

3. Emergency fund

Build three to six months of expenses so a surprise does not become debt.

04

RULE FOUR

4. Kill expensive debt

High-interest credit card debt grows faster than most investments. Clear it first.

DO THIS TODAY

Schedule an automatic transfer to savings for the day after every payday.

Small leaks sink big ships

The math of everyday spending

01

DO THE MATH

$10 a day

That is about $3,650 a year without noticing.

02

QUICK WIN

Check your subscriptions

List every monthly charge. Cancel the ones you forgot you had.

03

THE TRICK

Redirect, do not just cut

Send what you save straight to savings, or it disappears into other spending.

DO THIS TODAY

Go through last month's bank statement and cancel one subscription you no longer use.

When will your money double?

The rule of 72

01

STEP 1

Divide 72 by your return

72 divided by the yearly growth rate gives the years to double.

02

STEP 2

At 8% a year

Money doubles in about 9 years.

03

STEP 3

At 2% a year

It takes about 36 years. Low returns lose to inflation.

04

STEP 4

Start early

Every doubling you add before retirement changes everything.

DO THIS TODAY

Divide 72 by the yearly return of your savings. Write down how many years until your money doubles.

The 50/30/20 budget

A simple plan for any paycheck

01 STEP 1

50% needs

Rent, food, bills and transport.

02 STEP 2

30% wants

Eating out, trips and fun.

03 STEP 3

20% future you

Savings, investing and paying off debt.

04 STEP 4

Adjust it

If needs are higher, cut wants first, not your savings.

DO THIS TODAY

Sort last month's spending into needs, wants and future you. Compare it with 50/30/20.

Raise your credit score

The habits that matter most

01

STEP 1

Pay on time

Payment history is the biggest factor in most scores.

02

STEP 2

Use less of your limit

Keeping balances low compared to your limit helps.

03

STEP 3

Keep old accounts

A longer credit history usually helps your score.

04

STEP 4

Check your report

Look for mistakes and dispute them.

DO THIS TODAY

Request your free credit report and check every line for mistakes.

Why raises don't make you rich

Lifestyle creep explained

01 STEP 1

Income goes up

So does spending: bigger car, bigger rent.

02 STEP 2

Nothing changes

Savings stay flat while bills grow.

03 STEP 3

Save half of every raise

Enjoy some of it, invest the rest.

04 STEP 4

Track it

Watch your savings rate, not your salary.

DO THIS TODAY

Decide today what share of your next raise goes straight to savings, and write it down.

Why many investors choose index funds

Simple and low cost

01 STEP 1

Own the whole market

One fund can hold hundreds of companies.

02 STEP 2

Low fees

Lower costs leave more of the return in your pocket.

03 STEP 3

No stock picking

You do not need to guess the winners.

04 STEP 4

Stay patient

Time in the market matters more than timing it.

DO THIS TODAY

Look up the yearly fees on every fund or account you own and write them down.

PART

III

Billionaire Stories

How ordinary beginnings became extraordinary fortunes

Photo: Gillian Zoe Segal, CC BY-SA 4.0, via Wikimedia Commons

She started with $5,000

Sara Blakely and the idea behind Spanx

01 WHERE SHE BEGAN

No business degree

She sold fax machines door to door for years before she started her company.

02 THE BET

Her savings, not investors

She put about $5,000 of her own savings into Spanx in 2000 and kept full ownership.

03 SAVING MONEY

She wrote her own patent

Instead of paying a lawyer for everything, she studied and drafted much of the patent herself.

04 THE RESULT

Self-made billionaire

In 2012 Forbes named her the youngest self-made female billionaire.

> You do not need permission or a big budget to start. You need to start small and keep control.

DO THIS TODAY

Write down one idea you keep postponing. Then write the smallest version of it you could test this month for under $100.

Rejected by Facebook. Then sold to it for $19B

The Brian Acton story

01

THE LOW POINT

2009: two rejections

Brian Acton applied for jobs at Twitter and at Facebook. Both turned him down.

02

WHAT HE DID NEXT

He kept building

That same year he joined Jan Koum to build a simple messaging app: WhatsApp.

03

THE TURNAROUND

2014: $19 billion

Facebook bought WhatsApp for about $19 billion, the company that had rejected him.

> A rejection is information, not a verdict. Sometimes the closed door is the direction.

DO THIS TODAY

Think of your last rejection. Write one thing it taught you and the next step it points to.

Photo: USA International Trade Administration, Public domain, via Wikimedia Commons

Buffett's real secret is time

Why patience beats talent

01 EARLY START

He started at 11

Warren Buffett bought his first stock as a child.

02 THE SURPRISE

Most came late

The vast majority of his fortune was made after his 60th birthday.

03 WHY

Compounding needs years

Growth builds on growth. The longer money stays invested, the faster it grows.

> Start early, stay consistent and give your money the one thing it needs most: time.

DO THIS TODAY

Set up an automatic monthly contribution to a long-term savings or retirement account, even a small one.

Photo: SECWAR, Public domain, via Wikimedia Commons

Amazon started in a garage

The Jeff Bezos story

01 1994

He quit a safe Wall Street job

He left a well-paid role at a New York investment firm to sell books online.

02 THE START

A garage in Bellevue

Amazon began in the garage of a rented house near Seattle.

03 1997

Amazon goes public

Three years later the online bookstore was listed on the stock market.

> Bezos has said he chose the path he would not regret at 80. Fear of failing is smaller than regret.

DO THIS TODAY

Picture yourself at 80. Write down the one thing you would regret never trying.

Photo: US Embassy South Africa, Public domain, via Wikimedia Commons

From poverty to billionaire

The Oprah Winfrey story

01 WHERE SHE BEGAN

Born into poverty

She grew up poor in rural Mississippi.

02 FIRST BREAK

Radio as a teenager

She started in radio while still in high school.

03 OWNERSHIP

She owned her work

In 1986 she founded Harpo Productions and took ownership of her show.

04 THE RESULT

Billionaire by 2003

Forbes named her the first Black female billionaire.

> Talent opens doors. Ownership builds wealth. Own what you create.

DO THIS TODAY

List one thing you create (a skill, content, a product) and how you could own more of it.

Photo: The White House, Public domain, via Wikimedia Commons

From Denny's to Nvidia

The Jensen Huang story

01 WHERE HE BEGAN

He worked at Denny's

As a teenager he washed dishes and bussed tables at Denny's.

02 1993

Nvidia is founded

He co-founded Nvidia, an idea famously discussed over a Denny's booth.

03 TODAY

Chips that power AI

Nvidia graphics chips now run much of the world's artificial intelligence.

> Humble jobs build discipline. Where you start does not decide where you finish.

DO THIS TODAY

Write down three lessons from your first job that you still use today.

Photo: Tech.eu Photostream, CC BY 2.0, via Wikimedia Commons

Food stamps to $19 billion

The Jan Koum story

01 AGE 16

A new country

He moved from Ukraine to California with his mother.

02 HARD YEARS

Food stamps

The family relied on food stamps while he taught himself programming.

03 2014

WhatsApp sold for about $19B

The app he co-founded was bought by Facebook.

> Your starting point is not your ceiling. Skills compound like money.

DO THIS TODAY

Choose one valuable skill to learn for free this month and block 20 minutes a day for it.

From public housing to Starbucks

The Howard Schultz story

01

WHERE HE BEGAN

Brooklyn public housing

He grew up in subsidised housing in Brooklyn, New York.

02

THE SPARK

Espresso bars in Milan

A trip to Italy showed him coffee could be a daily ritual and a meeting place.

03

1987

He bought Starbucks

He raised the money to buy the company and grew it worldwide.

> Look for ideas everywhere. One trip changed coffee for the whole world.

DO THIS TODAY

Spend one hour somewhere new this week and note three business ideas you notice.

Nike started in a car trunk

The Phil Knight story

01

1964

$500 each

Phil Knight and his coach Bill Bowerman each put in about $500.

02

THE HUSTLE

Shoes from his car

He sold imported running shoes out of the trunk of his car at track meets.

03

1971

Blue Ribbon becomes Nike

Their small import company launched its own brand: Nike.

> Start with what you can carry. Big brands begin as small hustles.

DO THIS TODAY

List three things you could sell or offer this week with what you already have.

Photo: Ministry of Enterprise, Energy and Communications of Sweden/, CC BY 2.0, via Wikimedia Commons

He founded IKEA at 17

The Ingvar Kamprad story

01 1943

A teenager's company

He started IKEA in Sweden at just 17 years old.

02 THE EDGE

Low prices for everyone

Flat-pack furniture cut shipping and storage costs.

03 THE HABIT

Famously frugal

Even when rich, he was known for avoiding waste.

> Frugality is not about being cheap. It is about respecting every dollar.

DO THIS TODAY

Find one regular expense you can cut by 20% without losing what you truly value.

Photo: Oracle PR Hartmann Studios, CC BY 2.0, via Wikimedia Commons

A dropout who built Oracle

The Larry Ellison story

01 EARLY YEARS

Two college dropouts

He left two universities without a degree.

02 1977

Oracle begins

He co-founded the company with only a few thousand dollars.

03 THE BET

Databases for everyone

He bet early on database software that businesses would need.

> A degree is optional. Skills, timing and persistence are not.

DO THIS TODAY

Pick one in-demand skill in your field and start a free course on it today.

YOUR NEXT 30 DAYS

The 30-Day Wealth Plan

- [ ] Write your number: how much you want saved or invested 12 months from now.
- [ ] Set up an automatic transfer to savings for the day after payday.
- [ ] Sort last month's spending into needs, wants and future you.
- [ ] Cancel one subscription you no longer use.
- [ ] Check your credit report for mistakes.
- [ ] Start a starter emergency fund, then grow it toward 3 months of expenses.
- [ ] List every debt with its interest rate and choose which to clear first.
- [ ] Learn how index funds and fees work before you invest.
- [ ] Spend 20 minutes a day on one skill that can raise your income.
- [ ] Review this page on day 30 and set your next goal.

Monthly income	$ / date
Monthly savings goal	$ / date
Emergency fund target	$ / date
Debt to clear first	$ / date
Day 30 review date	$ / date

Your first million starts with a decision.
